LIVE 'HOT TOPICS' UPDATE COURSE WEBINAR

Thursday 21ST March 2024
1:00pm - 4:00pm

NB Medical is delighted to be working with Southwark Partnership to provide you with a LIVE, fully interactive, Hot Topics Update course webinar on Thursday 21st March 2024. Experience all of the same topics and resources as if you were attending a face to face course, but from the comfort of your own home or surgery. This is an online learning experience, where you can ask questions and take part in polls, making the whole experience as exciting and as fulfilling as attending a face to face course.

You will also be presented with a certificate of completion awarding 3 CPD points for attending this course. Please see below to course information.

ENROLMENT INFORMATION

There are 300 spaces available for this Hot Topic update therefore this will be first come first serve. Prior to the event, you will receive a course reference booklet posted to your practice, *(if you are a locum GP, please enter the practice you locum at the most)*.

In order to receive your booklet before the event, please be sure to register before Monday 4th March.

Access to the webinar is via the NB Dashboard. You will receive an email from NB Medical with your link & login details. Please note we do not distribute these details so if you are having issues you will need to contact NB Medical directly. Although this is live a session, if you are unable to join on 21st March, recording will be available to watch in full after the course

COURSE INFORMATION

OVERVIEW

The “Hot Topics” course consists of a series of short ‘TED-style’ engaging presentations blending evidence and cases, followed by discussion which may have an impact on your practice. The course comes with a number of extra resources to give it incredible ‘added value’.

COURSE REFERENCE BOOK

Prior to the event your course reference book will be posted to your practice. The book is fully referenced with recent summaries of the evidence for approximately 150 clinical Hot Topics commonly seen in primary care. Most of our delegates use this every day, like they use the BNF. All of the material is up to date and the material is completely **100% independent from any external influence.**

ONLINE CONTENT

12 months access to the on-line electronic version of the book which is instantly searchable. All the original references and resources for GPs (e.g. links to on-line clinical calculators) and patients (e.g. patient information leaflets) are hyperlinked and just one click away.

NB MEDICAL APP

The NB Medical App giving you access to the content from your course day in a fully searchable mobile friendly format on both iOS and Android devices.
